Summary

- Software Engineer with 3.5 years of experience in **full-stack development** using Spring Boot, ReactJS, Java, SQL, and REST APIs.
- Proven track record in building scalable, secure, and high-performing applications while collaborating in **Agile teams**.
- Strong problem-solving mindset with a focus on **code quality, performance optimization**, and delivering business value.

Education

Sunbeam Institute of Technology

Post Graduate Diploma in Mobile Computing (Full Stack Development)

Sep 2021 – Apr 2022

Pune, Maharashtra

M.S. Bidwe College of Engineering

B.E. in Computer Science and Engineering

Sep 2017 – May 2021

Latur, Maharashtra

Experience

Honeywell Technology Solutions

Software Engineer I

May 2022 – Present

Hyderabad, Telangana

- Contributed to a **cloud-based asset lifecycle management platform**, optimizing warehouse processes through real-time data insights.
- Designed and implemented new features, **improving system functionality and user workflows**, and resolved high-priority defects.
- Developed and enhanced REST APIs for data retrieval and reporting, improving performance and usability.
- Wrote and maintained **unit tests (JUnit)** to ensure code reliability, achieving higher test coverage and reducing production defects.
- Ensured **system security** by addressing vulnerabilities using Blackduck and Coverity, collaborating with penetration testers.
- Worked closely with cross-functional teams under **Agile methodology**, ensuring on-time delivery of multiple product releases.
- Recognized with **Honeywell Bronze Awards (two consecutive quarters)** for outstanding project contributions.

Projects

E-Commerce Web Application | *Spring Boot, React, JavaScript, HTML, CSS, MySQL*

- Built a full-stack platform enabling **product catalog, shopping cart, checkout, and order management** with secure workflows.
- Implemented **user authentication, role-based access**, and optimized SQL queries for performance and scalability.
- Developed REST APIs and integrated frontend with React, ensuring seamless and responsive user experience.

Technical Skills

Languages: Java, JavaScript, SQL

Frameworks/Technologies: Spring Boot, React, REST APIs, MySQL, Git, JUnit

Developer Tools: VS Code, Jira, Postman, Confluence, Bamboo, Blackduck, Coverity

Methodologies: Agile/Scrum

Certifications

- Java Backend Development – GeeksforGeeks
- Master Spring 6, Spring Boot 3, REST, JPA, Hibernate - EazyBytes
